

WIDI, inc
Destination ImagiNation®
Six of Everything

Challenge: Your **task** is to build a container, and hang it on a hanger. You then need to fill it with nails.

Time: You will have up to 5 minutes to use your IMAGINATION to discuss strategy, build your container and then up to 1 minute to add nails for score.

Set-up: In the center of the room is a pole with a hanger attached to it. There is also a table with materials

Procedure:

Part One: (5 minutes):

- Use the materials to build a container to hang on the hanger as far away from the pole as possible
- The container may only touch the hanger.
- You may practice adding nails to the container.
- You will be warned when you have one minute remaining in Part One
- **At the end of Part One you should have a container hanging on the hanger.**

Part Two: (1 minutes):

- Add nails one at a time to the container
- Once you have begun adding nails, team members may only touch the nails
- If you did not have a container on the hanger at the end of part one, you may continue to build it in Part Two, You may not add nails to the container till it is in place
- A nail must be fully released and held only by the container for at least 2 seconds for it to receive score

Materials:

6 straws	6 paper clips	6 pencils	6 index cards
6 piece of foil	6 small paper cup	6 forks	6 mailing labels

In addition you will receive 6 one inch nails, 6 two inch nails and 6 three inch nails to use for scoring only.

Scoring: You will receive

- A.** 30 points for a container on the hanger at the end of part one.
- B.** 6 points (60 points maximum) for nail placed in the container
- C.** Up to 10 points for how creatively you use the materials.
- D.** Up to 20 points for how well your team works together.

Set Up: Use anything that will allow you to hang a hanger from it.
(a PVC pipe in a stand, a wooden pole, one end of a metal coat rack are just some ideas) Use a metal hanger that can be bent to secure it on the pole.

Team hints:

What do all Instant Challenges have points for?

Do you need to put all the nails in to receive the highest score?

What matters more using the materials creatively or having a container at the end of Part one?
