

2009 WIDI, Inc Scholarship Recipients

Two individuals who more than exceeded the requirements for the WIDI, Inc Glitter Fairy Scholarship applied for the WIDI, Inc Scholarship. Ryan Dulde and Sam House both received their awards at the 2009 Affiliate Finals.

Ryan is currently enrolled in MU's Dental School. Ryan began his Destination ImagiNation journey in 2002 as a team member doing the StanDId challenge. His last time as a team member was also his first time as a DI volunteer. He was part of WI's University Team doing the Back at You Challenge. In the past two years, whatever Ryan has been asked to do in the Affiliate, he has not only done but exceeded in whatever role he has had. He has been an appraiser at the Regional, Affiliate and Global level. He has been a Regional Challenge Master for two years. This year he became an Affiliate Challenge Master, an Affiliate and regional trainer as well as the Tournament Director for the Milwaukee Rally of the Construction Challenge. Thank You Ryan for all you have done for DI in WI.

Sam House started in Creative Problem Solving in 1995. His last competitive team was Dual Dilemma in 2002. Sam started out the next year as an appraiser in IC. When the Regional Challenge Master did not show up, he instantly became the new Challenge Master. He scored high on that real life Instant Challenge that no one at the tournament even knew there was a potential problem. He has since then served as a Regional and Affiliate Challenge Master in Instant Challenge. He was an Affiliate Trainer for Instant Challenge Appraiser in 2009. He has also been seen for years at Global Finals in Outside Holding for Instant Challenge till 2009 when he was an announcer/official for DI extreme. He also was a Challenge Master for the Milwaukee Regional Rally for the Construction Challenge. He is currently pursuing his degree in Graphic Design at UWM. He recently put his DI skills to the test in a cardboard boat race. His team's creation came in first. Thank you, Sam for all you have done for DI in WI.
